AUTHOR INDEX TO VOLUME 8

ANDERSON, C.V. (See Marshak, G.) 323-330

ANTINORO, F. and SKINNER, P.H. The effects of frequency on the auditory evoked response. 119-123

AUNGST, Roberta B. (See Siegenthaler, B. M.) 433-438

BARDEN, T. P. (See Peltzman, P.) 379-390

BEALE, I. L. (See Irwin, R. J.) 81-90

BERGER, K. W. (See Isele, R. W.) 415-419

BIRCH, Lorena M., Warfield, Dickens, Ruben, R. J. and Mikaelian, D. D. Behavioral measurements of pure tone thresholds in normal CBA-J mice. 459-468

BRANDT, J. F. and HOLLEIN, H. Underwater speech reception thresholds and discrimination. 71-79

BROCKWAY, Barbara F. Effects of auditory stimuli on vertebrate endocrine activity. 299-302

BROWN, P. G. and WEBSTER, D. B. Cochlear microphonics and endocochlear potential from the basal and third turns of the kangaroo rat cochlea. 420-426

CAMPBELL, R. A., Lasky, Elaine Z. and Schmitz, H. D. Perceived threshold variability. 151-159

CARPENTER, A. (See WEBSTER, J.C.) 251-260

CHAMBERS, A. H., TERRIEN, T. J. and SCHULTZ, C. E. Effect of anoxemia on cochlear AC and endolymphatic potentials of the guinea pig. 237-250

COHEN, A. and JACKSON, E., Jr. Threshold shift in hearing as a function of bandwidth and mode of noise presentation. 401-414

COLTHEART, M. and IRVINE, D. The slope of ROCs in the rat. 167-170

CROWLEY, D. H. A modified stereotaxic instrument for acoustic studies in the rat. 427-432

DAHLE, A. J., HUME,W. G. and HASPIEL, G.S. Comparison of speech Bekesy tracings with selected clinical auditory measures. 125-128

DOEHRING, D. G. (See Swisher, Linda P.) 291-298

DUNLOP, C. W. and WAKS, Miriam D. Effects of arousal state on click responses in the cat cochlear nucleus. 97-100

ELFNER, L. F. (See Perrott, D. R. 185-193

EVERING, F. C. (See Patterson, W. C.) 439-448

FINCK, A. Analysis of single unit response areas in the cochlear nerve. 207-213

FINCK, A. and GOEHL, H. Vocal spectra and cochlear sensitivity in the Mongolian gerbil. 63-69

FISHER, H. G. and FREEDMAN, S. J. The role of the pinna in auditory localization. 15-26

FREEDMAN, S. J. (See Fisher, H. G.) 15-26

GOEHL, H. (See Finck, A.) 63-69

GRAHAM, J. T. (See Karlovich, R. S.) 1-13

GRAHAM, J. T. (See Peltzman, P.) 379-390

GUINTA, R. R. (See Zener, Annette R.) 313-322

HACK, M. H. The developmental Preyer reflex in the SH-1 mouse. 449-458

HARBERT, F. (See Young, I.M.) 91-95

HARBERT, F. (See Young, I. M.) 339-343

HASPIEL, G. S. (See Dahle, A. J.) 125-128

HEATON, W. C. (See Peterson, F. A.) 171-184

HERMAN, P. N. (See Wever, E. G.) 39-42

HICKLING, S. Experimental studies relating to the SISI test. 477-481

HOLLEIN, H. and THOMPSON, C. L. Forms C and D of the Hollein-Thompson Group Screening Test of Hearing. 143-150

HOLLEIN, H. (See Brandt, J. F.) 71-79

HUME, W. G. (See Dahle, A. J.) 125-128
